Gentlemen: I cannot state definitely the amount of Porl already put up here, but think 140,000 would cover it, and we will probably have 10 to 15 000 more, including the amount packed this week. I do not think, including every thing, we will reach 175,000, and I feel very well satisfied that latterly operations have ceased in the country, and the Hogs are com-Mess Pork is offering at 8 25. Sales have been made a

8 124. Lard sells at 54, and sales have been made as high as 54. There are no transactions in Prime Pork, and packers and holders are satisfied to hold longer. Prices here are at the lowest ebb, and I am of the opinion will advance as soon as cutting is over. Hogs sold yesterday at from 21 to 21. The weather now is very fine for Pork. FLOUR.-The receipts of the week are 2598 bbls, and the

price has ranged between 3 90 and inspection and \$4. In City Mills but little is doing, owing to light stock occasioned by insufficient supplies of Wheat.

WHEAT .- The price fixed upon two or three weeks age. 7 cents per bushel, is paid for such lots as come in. CLOVER SEED has arrived freely within the week, and beer sold at \$4 75, \$1 30, \$1 85 and \$1 87; -one sale at \$5, a ver apperior article.

FLAX SEED .- Rather more has come in the past week than for a week or two previous, but the supply is still very inade quate to the demand. 83 a 15c per bushel is paid readily, and some sales are reported at 87c.

WHISKY is rather dull. The price remains firm at 19c pe gallon and inspection at the capal. Provisions.-We have still nothing like activity to notic

in the Provision market. A large number of Hogs have been turned into Pork and Lard every week, and the shipments of both these atticles are very heavy; but a great proportion of the operations have thus far been on Eastern account, and few days one or two lots of Mess Pork have been taken at \$8 124 per bol, but that is generally considered rather above the market, it being the common asking price and \$7 87 a \$8 the common offering price. We have another sale of Clear t report, at \$9 124, which is an advance of 124c per belou the sale reported last week. Small sales of Rump have also been made within a few days at \$6 A sale of 100,000 lbs bulk Pork is reported at 2 75 per 100 ibs houround. Of one lot of 100 Hogs the Green Hams sold at 410 per lb. and the Shoulders a 2c. This was a special transaction, however, and is above the market. For Green Hams 3t a 4c is a fairer quotation. The sales of keg Lard, No. 1, are mostly at Sec per 1b, but we have heard of several small sales during the week at a fraction above this, and of a sale of 600 ke, s on Tuesday morning at 52 cts The shipments of Pork to New-Orleans sinse the commence ment of the active business season of Cincinnati amount t about 90 000 bbis packed and 285 tons in bulk.

Hogs .- About 3000 Hogs came into the market early in the week upon some 5000 in the pens. The receipts by wagon have also been considerable, and the price has receded to about 82 40 a 2 75 as extremes.

A comparison of the business done through the harbor at Huron, Ohio, in 1835 and 1843, shows the tollowing 21. 7

and it will generally succeed in curing every case of Consumption, where the following things are attended to, viz: a fair trial, perseverance and a strict conformity to the directions. In order that this may not be considered mereassertion, unsupported by facts, the reader is referred to a pamphlet, published by the proprietor, which can be obtained gratis at any of his offices, in which can be found a number of cases, substantiating the truth of this assertion. Also may be seen at his office a number of certificates which have never yet been published, where individuals have been cured of Conbeen published, where individuals have been cured of Con-sumption, after having been given up by their physician and friends. It may not be amiss to state the reason of the great success of the Pulmonic Syrup. It is the most powerful puri-fier of the system known—it operates by assisting nature to ex-pel the disease from the Lungs, Stomach and liver. Where there is bectic fever, right sweats, constipation, all usual symptoms of Consumption, the use of the Syrup removes the fever, stops the might sweats, and regulates the action of the bowels, making them healthy and natural. It soothes and ripens the disease of the Lungs, and then expels it in the form of expectorate I natier, and it is truly astonishing what quantities of matter is expectorated by patients generally, who have taken the Fulmonic Syrup, and this continues until all disease of the Lucas is removed, and the patient finds to his joy that he is restored to realth.

FROM M. VAN BUREN.

I, the subscriber, do hereby certify, that, about eighteen months ance, I cought a heavy celd, which produced a violent cough, pain in the breast, and a general derangement of the whole system. The symptoms gracually increased, notwithstanding the many remedies that were used. My cough was very tight and troublesome; at times, violent palpitation of the heart, particularly when I excited myself; hectic fever, chills, which were succeeded by het flashes, and great burning in the palms of my hands and soles of my feet. My bowels were costive and treeplar. Being of the opinion of my ing in the palms of my hands and soles of my feet. My bowels were costive and irregular. Being of the opinion of my
physicians, that I was in a rapid decline, I never expected to
recover. Hearing at this time so much of Schenck's Pulmonic
Syrup, and the wonderful cures it was making in this city. I
resolved to give it a trial. Soon a ter I commenced using it,
it caused a copious expectoration of yellow matter, which alforded me great relief. Under its use, all my disease disappeared, and I aow enjoy almost as good health as ever I did.
My residence is at No. 18 Christopher street, where any
consumptive person can see me, and I will be most happy to
direct them to the place, where, I have every confidence, they
can be cured.
